JPMorgan Chase & Co

Dear sir/ma'am,

I am writing to express my interest in the full time job opportunity with your company. I learn about your company through various social media platform, and after knowing it, I also want to be a part of your company.

Currently, I am pursuing Bachelor of Technology in Computer Science and will receive my degree next spring. As, I have Java and spring boot skills, my emphasis is on the corporate sector. I feel that your company places prominence in similar areas and having the privilege of serving your organization will increase my learning opportunities and give me the exposure I need to advance my career while using what I've already learned to make an impact on your customers.

After graduation, I hope to experience developing prominent solution for a product based organization like yours to grow my experience and serve products that you develop. With the right opportunity, your guidance and experience working with prominent products, I believe that I can achieve my goal and in turn, give you my utmost dedication for the betterment of the company.

Previously, I had made a project based on Java and spring boot, It's a Rest based project that tracks the company assets, and their condition and assigns these assets to the company employee. The technologies that were used are Java, Spring boot, Microservices, and the MySQL database. Therefore, I believe that my knowledge could be of interest to you.

I've enclosed my resume, which further details my education and knowledge. I look forward to the opportunity to discuss my skills and qualifications at your convenience. Please reach me by email at anujg0028@gmail.com or by phone at 7317756829

Thank you for your time, and I look forward to hearing from you soon.

Sincerely,

Anuj Garg
